ALWAYS keep your eyes on the 300 detects at all times.

If the jackpot won't payout: If there are plenty of balls in Supply Tray (5) then it must be concluded that there are balls missing or the number of balls in the tray is too low. In this case, remove the balls from the tray. If the tray is empty, you may have dropped too many balls into the machine. If the tray is not empty, you may have dropped too few balls into the machine. If the tray is not empty, you may have dropped too few balls into the machine.

If there are no balls in Supply Tray (5) then it must be concluded that there are balls missing or the number of balls in the tray is too low. In this case, remove the balls from the tray.
